

ABANGCEBU AI — SPRINT 1 UI/UX ARCHITECTURE SPECIFICATION

User Dashboard Wireframe & Layout Specification

Dual-View Operational Architecture (/dashboard/renter & /dashboard/landlord) · MacBook Air 16:10 Frame (1440px)

Jira Reference: SCRUM-67	Framework: Next.js 16 + React 19 + Supabase RLS	Fidelity: MID-FIDELITY WIREFRAME
Author: Neah Moneva (UI/UX Designer)	Reviewed By: Hermar Centillas (Lead / Scrum Master)	Status: APPROVED / ACTIVE
Design Standards: Balsamiq/Figma Grayscale Blueprint Conventions, Apple HIG Ergonomics, Supabase RLS Boundary Isolation, WCAG 2.2 AA Contrast & Touch Rules		

1. Executive Summary & Dual-View Dashboard Philosophy

AbangCebu AI delivers an operational command center tailored to Metro Cebu's dual rental personas. Departing from monolithic portals, the architecture implements distinct role-specific workspaces: **Renter View (/dashboard/renter)** for student and professional seekers managing saved listings, ocular tour schedules, real-time landlord chats, and transit proximity to CIT-U, USC, and IT Park; and **Landlord View (/dashboard/landlord)** for boarding house hosts managing unit vacancy status, incoming applicant dossiers, and Anti-Scam KYC verification.

Spatial & Security Continuity: Map context is preserved across all interactions—every saved rental retains walking distance and jeepney corridor metadata (04L, 17B). All database queries enforce strict Supabase Row-Level Security (RLS), guaranteeing absolute data isolation between seekers and property owners.

2. Desktop Viewport Specification (1440px × 900px · MacBook Air Chassis)

Encased in an authentic MacBook Air chassis (16:10 display), desktop navigation is anchored by a 260px fixed dark sidebar (#0F172A) with brand logotype, user profile pill, and KYC verification status. The 1180px main workspace features a contextual header, Amber Anti-Scam KYC Banner, 4-metric suite, saved rentals matrix, and inquiries timeline:

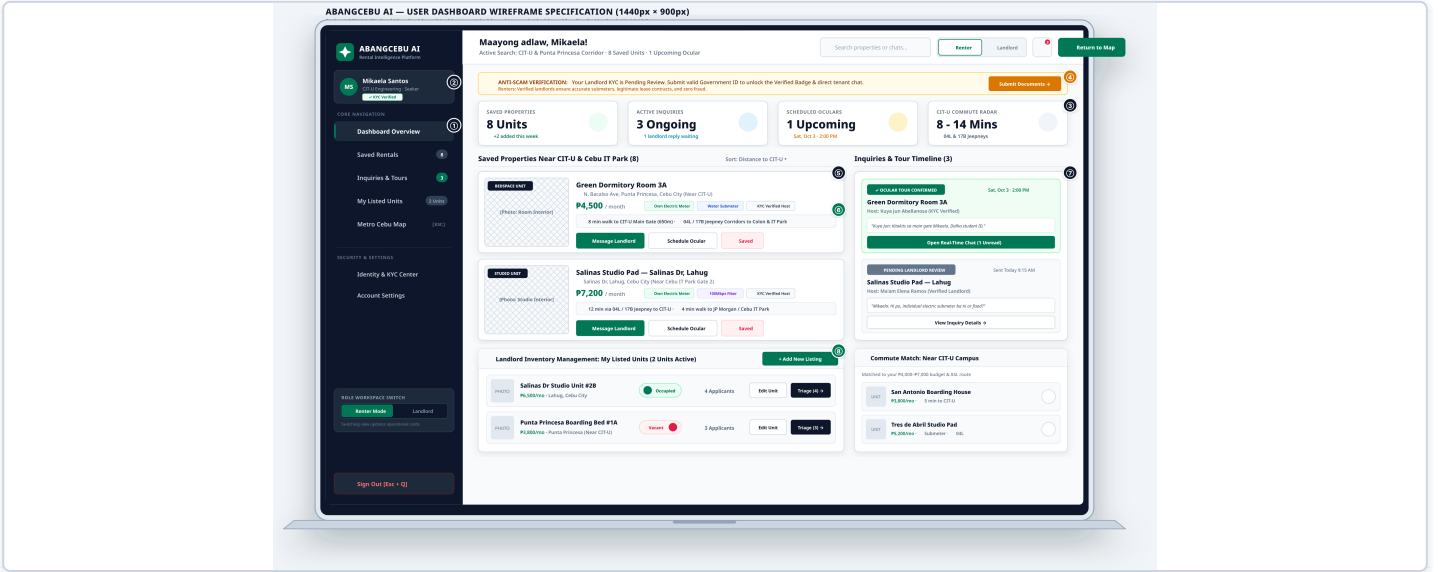

Figure 1: Desktop 1440px Mid-Fidelity Wireframe Blueprint — MacBook Air Aluminum Chassis, 260px Fixed Sidebar, Dual-View Switch, Amber KYC Notice, Saved Rentals Grid & Inquiries Timeline

Component	Dimensions / Placement	Wireframe Role & Authentic Design Architecture
MacBook Air Chassis	1480 × 950px Outer	Aluminum unibody frame, top FaceTime camera notch, camera lens, green LED, inner bezel, and bottom opening lip.
Fixed Sidebar Nav ①	w: 260px, h: 900px (x: 0, y: 0)	Dark surface (#0F172A), brand crest, core navigation items (Overview, Saved Rentals, Inquiries, Listed Units, Map [ESC]), and bottom Sign Out.
User Profile Pill ②	w: 228px, h: 62px (x: 16, y: 76)	User initials avatar (MS), full name (Mikaela Santos), student seeker role tag, and green KYC Verified pill (✓ KYC Verified).
Anti-Scam Notice Banner ④	w: 1120px, h: 42px (x: 290, y: 80)	Amber callout banner (#FFFBEB, border #FCD34D) alerting landlords to submit valid Government ID to unlock verified badge and direct messaging.
4-Metric Cards Suite ③	w: 265px, h: 84px each (y: 134)	Key performance cards: Saved Properties (8 Units), Active Inquiries (3 Ongoing), Scheduled Oculars (1 Upcoming), and CIT-U Commute Radar (8-14 Mins).
Saved Properties Matrix ⑤	w: 695px, h: 154px per card	2-column matrix showing unit photos, monthly rent in Cebu Emerald (#047857), utility submeter badges, and transit walk times to CIT-U.
Submeter & Transit Badges ⑥	h: 18px – 24px, padding 3px 8px	Feature badges: Own Electric Meter, Water Submeter, KYC Verified Host, and Walking / 04L Jeepney route proximity pills.
Inquiries & Tour Feed ⑦	w: 405px, h: 320px (x: 1005, y: 268)	Vertical timeline tracking ocular tour status (Confirmed Ocular Sat 2pm), host chat snippets, and direct live chat triggers.
Landlord Inventory Preview ⑧	w: 695px, h: 196px (y: 604)	Unit rows with Occupied/Vacant toggle switch, pending applicant count, edit unit buttons, and + Add New Listing CTA button.

ABANGCEBU AI — MOBILE INTERACTION ARCHITECTURE

Mobile Viewport Wireframe Specification (393px × 852px · 100dvh)

Dual-View Ergonomics & Inquiries Triage Workflows · iPhone 16 Pro Titanium Chassis · iOS Safari 100dvh

3. Mobile Viewport Geometry & Touch Ergonomics

The mobile dashboard standardizes on 100dvh (Dynamic Viewport Height) (Dynamic Viewport Height) encased in an authentic iPhone 16 Pro Titanium chassis with Dynamic Island and persistent bottom iOS Safari navigation. It enforces 44×44px touch targets and the 16px input font rule. Below is the side-by-side comparative blueprint across 4 core operational states:

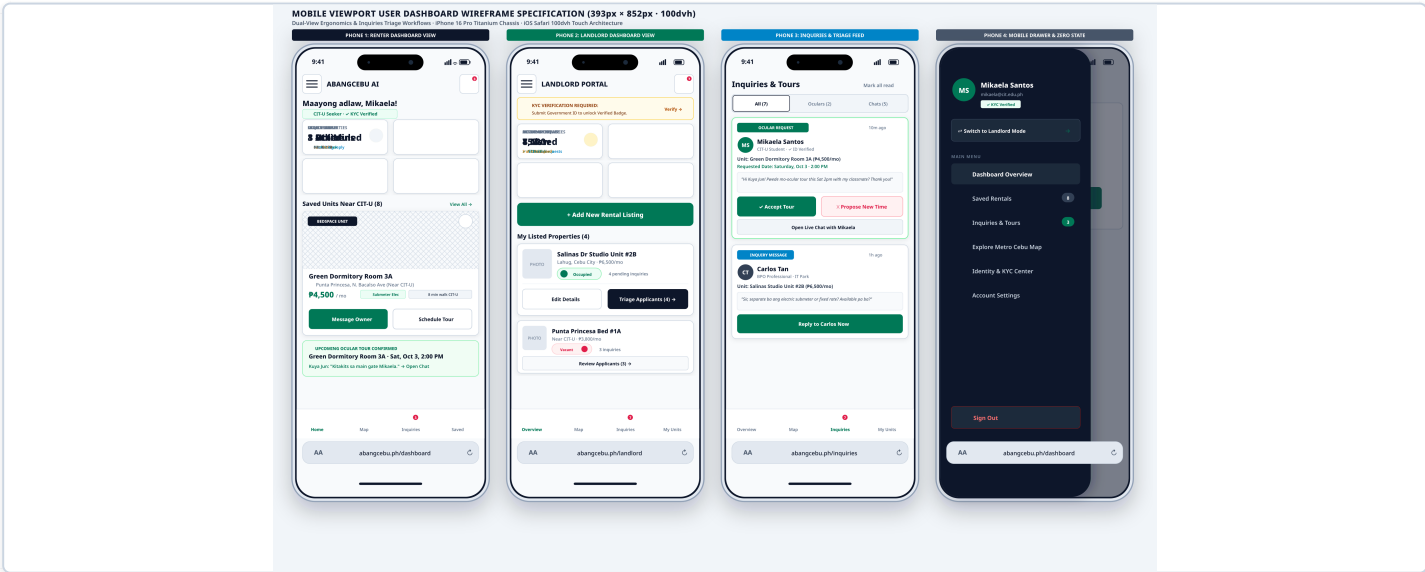

Figure 2: Mobile 100dvh Mid-Fidelity Wireframe Blueprint — iPhone 16 Pro Titanium Chassis, Phone 1 (Renter View), Phone 2 (Landlord View), Phone 3 (Inquiries & Triage Feed), and Phone 4 (Mobile Drawer & Empty State)

Operational State	Visual Hierarchy & Components	User Interaction & Workflows	Ergonomic & Technical Governance
Phone 1: Renter View	Greeting, role badge, 2×2 metric grid (Saved, Inquiries, Ocular, Transit), Saved Unit card with photo, submeters, and chat/tour CTAs.	Quick view of saved rooms; instant 1-tap message to landlord; upcoming ocular tour alert card with host note.	44×44px buttons; persistent 4-tab bottom navigation (Home, Map, Inquiries, Saved); iOS Safari URL bar.
Phone 2: Landlord View	Amber Anti-Scam KYC Notice, 2×2 operational metrics (4 Units, 1,420 Views, 7 Inquiries, 85% Occupancy), + Add Listing CTA.	Landlord room management; interactive Occupied/Vacant toggle switch; applicant dossier review link.	High-contrast Cebu Emerald CTA (#047857); instant vacancy status toggle with optimistic update.
Phone 3: Inquiries Triage	Segmented filter pills (All 7, Oculars 2, Chats 5), applicant tour request dossier (Mikaela Santos, CIT-U Student, ID Verified).	Landlord 1-tap rapid triage: [✓ Accept Tour], [× Propose New Time], and direct live chat trigger.	Green/Red triage contrast; 44px hitboxes for thumb reach; message history snippet preview.
Phone 4: Drawer & Zero State	285px slide-out navigation drawer over 55% dimmed backdrop; user profile, role switcher, full navigation links, and Sign Out.	Seamless switching between Renter and Landlord modes; underlying empty state invites map exploration.	WAI-ARIA dialog trap; slide animation; primary [🗺️ Explore Metro Cebu Map →] action button.

MOBILE TOUCH ERGONOMICS & ANTI-SCAM GUARDRAILS

- **WCAG 2.2 AA 44×44px Touch Targets:** Enforced via @utility touch-target on all buttons, tabs, drawer toggles, and occupancy switches.
- **Anti-Zoom 16px Rule:** Mobile inputs and search bars strictly locked to 16px (text-base) to prevent destructive iOS Safari auto-zoom.
- **Thumb Zone Ergonomics:** Primary actions (Message Host, Schedule Tour, Accept Tour, + Add Listing) placed within lower two-thirds natural thumb reach.
- **Anti-Scam KYC Trust Pipeline:** Unverified landlords gated from public phone numbers and badges; amber notice guides document submission.

ABANGCEBU AI — ENGINEERING IMPLEMENTATION CONTRACTS

Accessibility, Component Contracts & Sign-Off

WCAG 2.2 AA Tab Order Flow · Next.js 16 Server/Client Boundaries · Definition of Done

4. Sequential Keyboard Tab Order & WAI-ARIA Matrix

Tab #	Element	Accessible Name	ARIA Roles & States	Keyboard Action
1	Brand Crest Link	"AbangCebu AI Dashboard Home"	role="link"	Enter routes to /dashboard
2	User Profile Card	"Mikaela Santos, Student Seeker"	role="region", aria-label="Profile Dossier"	Visual anchor / Tab next
3	Overview Nav Link	"Dashboard Overview, current page"	role="link", aria-current="page"	Enter activates view
4	Saved Rentals Link	"Saved Rentals, 8 items"	role="link", aria-label="Saved Rentals"	Enter routes to /dashboard/saved
5	Inquiries Nav Link	"Inquiries & Tours, 3 unread"	role="link", aria-label="Inquiries, 3 unread"	Enter routes to /dashboard/inquiries
6	Role Workspace Switch	"Switch Workspace Role"	role="tablist", aria-label="Role Switch"	ArrowRight/Left toggles role
7	Sign Out Button	"Sign Out of AbangCebu AI"	role="button", aria-label="Sign Out"	Enter opens logout dialog
8	Workspace Search Field	"Search saved listings or inquiries"	type="search", aria-label="Search"	Standard typing
9	Notification Bell	"Notifications, 3 unread"	role="button", aria-haspopup="dialog"	Space / Enter opens flyout
10	Return to Map Button	"Return to Metro Cebu Map Explorer"	role="link", aria-label="Return to Map"	Enter or Esc routes to /map
11	KYC Verification Banner	"Anti-Scam KYC Notice"	role="alert", aria-live="polite"	Screen reader announcement
12	Saved Property Card	"Green Dormitory Room 3A, ₱4,500/mo"	role="article", aria-label="Property Card"	Tab into card action buttons
13	Message Host CTA	"Message landlord Kuya Jun"	role="button"	Enter opens live chat drawer
14	Schedule Ocular CTA	"Schedule ocular tour for Green Dorm"	role="button"	Enter opens booking modal
15	Accept Tour CTA (Landlord)	"Accept ocular tour request"	role="button", aria-label="Accept Tour"	Enter confirms booking
16	Occupancy Toggle Switch	"Toggle occupancy status for Salinas Studio"	role="switch", aria-checked="true"	Space toggles Occupied/Vacant

5. Next.js 16 Component Hierarchy & Boundaries (Sprint 2 Contract)

Component	Runtime	File Location (Sprint 2)	Architectural Role & Contract
DashboardLayout	SERVER	src/app/(dashboard)/layout.tsx	Enforces Supabase session auth. Resolves user profile role (renter vs landlord). Injects persistent sidebar & header.
SidebarNav	CLIENT	src/components/dashboard/sidebar-nav.tsx	Manages active route highlights, badge counts, mobile slide-out drawer state, and accessible keyboard focus traps.
DashboardHeader	CLIENT	src/components/dashboard/dashboard-header.tsx	Sticky header with localized greeting, quick search debounce, notification bell dialog, and role workspace switcher.
MetricCard	SERVER	src/components/dashboard/metric-card.tsx	Reusable operational metric summary card with label, value, trend badge, and semantic SVG icon bubble.
KycAlertBanner	CLIENT	src/components/dashboard/kyc-alert-banner.tsx	Anti-Scam KYC verification notice banner. Reacts dynamically to profiles.kyc_status (unverified, pending, verified, rejected).
SavedPropertiesGrid	CLIENT	src/components/dashboard/saved-properties-grid.tsx	2-column responsive card matrix. Displays submeter badges, commute walk times, and fires optimistic unsave events.
ActiveListingsTable	CLIENT	src/components/dashboard/active-listings-table.tsx	Landlord inventory table. Handles instantaneous vacancy/occupancy toggle switches with optimistic state feedback.
InquiriesTriageFeed	CLIENT	src/components/dashboard/inquiries-triage-feed.tsx	Landlord applicant triage inbox. Handles 1-tap tour acceptance (POST /api/tours/accept), reschedule modal, and live chat drawer.
BottomTabBar	CLIENT	src/components/dashboard/bottom-tab-bar.tsx	Mobile persistent 4-tab bar (Home, Map, Inquiries, Saved/Units). Renders safe-area margins and unread notification pips.

6. Definition of Done & Architectural Sign-Off

- Mid-Fidelity Wireframe Standard: Balsamiq/Figma grayscale blueprints, crossed [X] placeholders, and authentic MacBook Air / iPhone 16 Pro chassis.

Desktop Dual-View Specification: 1440×900px, 260px fixed dark sidebar, profile pill with KYC status, 4-metric suite, saved rentals matrix, and landlord inventory preview.

Mobile 4-State Specification: 100dvh viewport, Phone 1 (Renter View), Phone 2 (Landlord View), Phone 3 (Inquiries & Triage), and Phone 4 (Drawer & Zero State).

Anti-Scam KYC Trust Banner: 4 deterministic states (unverified, pending, verified, rejected) guiding document submission.

Accessibility Compliance: WCAG 2.2 AA 44×44px touch targets, 16px mobile input anti-zoom rule, contrast ≥ 4.5:1, and sequential tab order flow.

Sprint 1 Boundary Maintained: Purely architectural wireframe blueprints and data contracts; ZERO premature React/JSX feature code.

Rendered Engineering Assets: High-res vector SVGs, 300 DPI PNG blueprints, and 3-page WeasyPrint engineering specification PDF.
